

Calumet – Central Boiler

Owner
Metropolitan Water Reclamation District of Greater Chicago

Client
IHC Construction Companies-LLC

Location
Chicago, IL

Architect
IMI design assist w/
MWRD

IMI contract amount
\$ 12,250,000

Completion
June 2010

As the prime mechanical contractor for the construction of a new central boiler plant, IMI installed four 70,000 PPH water tube boilers, natural gas compressors, water softeners, water deaerators, boiler feed water pumps, and other associated systems. In addition, the facility was equipped with the ability to fire the boilers using gas produced on site during the treatment of waste water.
